

YIYUAN HE

+1 (872) 303 7788 • he000641@umn.edu

SKILLS & INTERESTS

- Research Interests: Labor Economics, Family Economics, Labor Search, Matching, Development Economics
- Skills: Research Design & Proposals, Literature Reviews, Quantitative Methods (Regressions, Surveys, Computations, Simulations), Data Analysis, Visualization, Academic & Professional Writing; Languages: English & Chinese
- Technical Proficiencies: STATA, R, MATLAB, Julia, MySQL, LaTeX, GitHub, SurveyCTO

EDUCATION

University of Minnesota, Minneapolis, MN

PhD, Economics, May 2030 (Expected)

University of Chicago, Chicago, IL

MA, Social Sciences; Economics, June 2024

BA, Economics, June 2023

RESEARCH EXPERIENCE

Development Innovation Lab, Research Assistant - Dr. Wendy Wong, October 2022 – June 2024

The Impact of Improving On-the-Job Safety for Women on Earnings

- Provide research support on project examining effects of on-the-job safety on women's labor participation as Uber drivers in Mexico.
- Conduct balance and pre-trend checks to test the validity of difference-in-differences as the identification strategy.
- Cleaned, merged, and maintained two datasets with the information of over 1 million drivers.
- Generated summary statistics and descriptive figures for the paper and its presentations.

The Impact of Implementing PAL Program in the State Andhra Pradesh, India

- Provided quantitative and qualitative analyses for the pilot experiment on the impact evaluation of introducing Personalized Adaptive Learning (PAL) program into public schools in the State Andhra Pradesh in India.
- Helped produce reliable survey results by writing reports based on the pilot qualitative interviews, generating survey items based on the reports; Designing and checking the survey skipping patterns.
- Conducted high frequency checks on survey responses; Generated corresponding daily reports (July-August 2023).
- Conducted literature review on education economics about the experimental designs for computer assisted learning.

National Institute of Finance & Development, Research Assistant - Prof. Zhihao Hu, July 2020 – September 2022

- Wrote weekly bulletin analyzing international monetary and fiscal policies and related research literature with an emphasis on labor market and Central Bank Digital Currency to assist future longitudinal research.
- Closely studied the estimation and decomposition of U.S. economic national accounts and labor statistics as well as the dating of business cycles; Wrote an article discussing the reasons of U.S.'s shift of Beveridge curve.
- Helped build a database of macroeconomic and monetary indicators using MySQL.

Becker Friedman Institute for Economics, Research Assistant - Prof. Christina Brown, June 2022 – September 2022

The Effect of the Introduction of Performance Pay on Teacher Sorting

- Used Item Response Theory (a parametric discrete choice model) to calibrate the positive sorting effects of performance rate contracts compared to flat contracts in Pakistan.

RELEVANT COURSEWORK (*Courses before PhD)

- **Economics:** Advanced Labor Economics I-III, Wage and Employment I-III, Economic Growth and Development I-III, Advanced Topics in Macroeconomics, Noncooperative Game Theory
- **Math/Statistics:** Real Analysis*, Linear Algebra*, Statistical Theory and Methods*, Ordinary Differential Equation*, Advanced Numerical Analysis*
- **Teaching Assistantship:** Microeconomic Analysis I-II, Intermediate Microeconomics
- **Reading:** UChicago Undergraduate Economic Theory Reading Group*

HONORS & AWARDS

Warwick Fellowship, University of Minnesota, 2025

Finalist, Econometrics Game, University of Chicago, 2022

Distinguished Young Scholar, Camphor Young Economist Program, Chinese Academy of Social Sciences, 2022

Sophomore Scholar, Boston College, 2021
